JOB EXPERIENCES

FRONT-END WEB DEVELOPER

2015 - 2022

BUILDERS FIRSTSOURCE

Built responsive pages and components in Hybris eCommerce platform using HTML5, CSS3, JavaScript, Bootstrap, & Vue. Provided advice on best practices for website interface elements and layout in a large eCommerce deployment. Debugged and tested pages using Firefox Developer Tools, Chrome DevTools, & PageSpeed Insights. Created rapid prototypes from mockups with semantic HTML, Bootstrap, Vue.js, & jQuery. Created a blog application on the company website using Vue.js. Mentored junior staff on HTML, CSS, and Hybris.

WEB DEVELOPER

2014 - 2015

AIRCLEAN SYSTEMS

Designed, developed, tested, implemented and maintained a web application which allows prospective employees to submit resumes online.

Developed a related application to allow Human Resources to create, retrieve, and modify company job listings. These applications were created with PHP/MySQL, on WAMP. JavaScript, jQuery, CSS, Bootstrap, and HTML5 were also utilized on these projects.

Managed numerous email marketing campaigns and data sets in iContact.

WEB PRODUCER

2010 - 2014

THE CHANNEL COMPANY

Developed and implemented websites and landing pages for top technology corporations using HTML, CSS and JavaScript.

Responsible for organizing and producing fully integrated digital marketing campaigns that tied together multiple mediums from client materials.

Acted as consultant/specialist with account managers and clients to inform and educate them on email marketing best practices and campaign strategies within the company's platform.

Created responsive-design, mobile-friendly email templates.
